DISCLAIMER
Daisy Data Displays, Inc. makes no representations or warranties with respect to the contents or use of this manual, and specifically disclaims any express or implied warranties of merchantability or fitness for any particular purpose. Daisy Data Displays, Inc. reserves the right to revise this publication and to make changes to its content, at any time, without obligation to notify any person or entity of such revisions or changes. Furthermore, Daisy Data Displays, Inc. makes no representations or warranties with respect to any Daisy Data Displays manufactured equipment, and specifically disclaims any express or implied warranties of merchantability or fitness for any particular purpose. Daisy Data Displays, Inc. reserves the right to make changes to any and all Daisy Data Displays manufactured equipment, at any time, without obligation to notify any person or entity of such changes.

FCC WARNING
Computing devices and peripherals manufactured by Daisy Data Displays generate, use, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions in this manual may cause interference to radio communications. Such equipment has been tested and found to comply with the limits for a Class A computing device pursuant to Subpart J of Part 15 of the FCC Rules, which are designed to provide reasonable protection against radio interference when operated in a commercial environment. Operation of this equipment in a residential area is likely to cause interference, in which case the user - at his own expense - will be required to take whatever measures may be required to correct the interference. Some components may not have been manufactured by Daisy Data Displays, Inc. If not, Daisy has been advised by the manufacturer of the component that the component has been tested and complies with the Class A computing device limits as described above.

Manual Revision 2

Copyright ©2017, Daisy Data Displays, Inc. All rights reserved.
Limited Warranty and Liability Statement
To the original purchaser, Daisy Data Displays, Inc., hereinafter referred to collectively as SELLER, warrants each of its manufactured products, and all components therein contained to be free from defects in materials and/or workmanship for a period of 12 months from the date of purchase.

Should a malfunction or other indication of defect attributable directly to faulty materials and/or workmanship occur, Seller will, at its option, and without charge to the customer for labor and parts, repair or replace the defective product, F.O.B. Seller’s plant, but Seller will not be responsible for freight from Purchaser to Seller’s plant. In no event shall Seller be liable for any loss, inconvenience or damage, whether direct, incidental, consequential or otherwise resulting from abuse, misapplication or modification of the product, improper or faulty power, damage resulting from repairs or alterations performed by unauthorized persons, or conditions resulting from any other equipment attached to the product.

Seller assumes no liability for damage occurring in transit due to the product not being returned in its original shipping material.

This warranty is exclusive and is in lieu of any warranty of merchantability or fitness for a particular purpose or other warranty of quality whether expressed or implied, except of title and against patent infringement. Correction of nonconformities, in the manner and for the period of time provided above, shall constitute fulfillment of all liabilities of the Seller to the Purchaser with respect to, or arising out of the goods, whether based on contract, negligence, strict tort or otherwise.

LIMITATION OF LIABILITY: The Seller shall not under any circumstances be liable for special or consequential damages, such as, but not limited to, damage or loss of other property or equipment, loss of profits or revenues, cost of capital, cost of purchased or replacement goods, or claims of customers of Purchaser for service interruptions. The remedies of the Purchaser set forth herein are exclusive, and the liability of Seller respect to any contract, or anything done in connection therewith such as the performance or breach thereof, of from the manufacture, sale, delivery, resale, installation or use of any goods covered by or furnished under this contract whether arising out of contract, negligence, strict tort or breach of warranty or otherwise, shall not, except as expressly provided herein, exceed the price of the goods upon which such liability is based.

This warranty gives you specific legal rights, and you may also have other rights, which vary from state to state. Seller makes every effort to provide clear and accurate technical information on the application of its products in the Operator’s Manual, and assumes no liability for misuse of the information.

1. **Introduction**
   
   Thank you for selecting a Daisy solution for your hazardous area operator interface needs.

   This manual contains drawings and component locations for installing and setting up Daisy Data flat panel operator interface systems. In addition, Daisy Data provides warnings, precautions, and methods to ensure that the electronic systems are safe for hazardous areas. This explains the theory behind the unique product and services provided by Daisy Data.

   Should you have any inquiries or concerns, please contact Daisy.

2. **Applicable Ratings**
   
   National Electrical Manufacturers Association (NEMA) is the regulatory body that defines the criteria for electrical enclosures.

   2.1. **Applicable Ratings**
   
   NEMA defines a 4X enclosure as:

   "Type 4X Enclosures constructed for either indoor or outdoor use to provide a degree of protection to personnel against access to hazardous parts; to provide a degree of protection of the equipment inside the enclosure against ingress of solid foreign objects (windblown dust); to provide a degree of protection with respect to harmful effects on the equipment due to the ingress of water (rain, sleet, snow, splashing water, and hose directed water); that provides an additional level of protection against corrosion; and that will be undamaged by the external formation of ice on the enclosure."

   Please note that DAISY’s systems have been fully tested under the supervision of Factory Mutual (FM) to ensure compliance with the standards.

   *Part of the NEMA definition of NEMA 4X Enclosures*
3. **Customer Service**

All Daisy systems pass detailed quality control configuration and inspection before being shipped. Daisy strives to create the highest quality systems, and chooses top quality parts. However, like most electronic devices, units may experience issues over time. Should you experience problems, or have any further inquiries or comments, please contact Daisy’s customer service department:

- **Business Phone**: (717) 932-9999 x222
- **Fax**: (717) 932-8000
- **Email**: support@Makeitdaisy.com

Equipment returned to Daisy for service must be accompanied by a valid return merchandise authorization (RMA) number. Items or products shipped to Daisy without a valid RMA number will be refused. An RMA will be generated upon receipt of Company Name, Address, Contact, Product Model and Serial Numbers.

Daisy Data Displays Inc. prides itself on offering best in class support for your products. Our technical support team can help you with installation, configuration, troubleshooting, and other support issues for all Daisy’s products.

4. **Software/Hardware**

Daisy data should be contacted for any hardware or software questions/issues. Additional SSD’s or operating systems can be supplied as needed. Be aware that any modifications or alterations without the assistance of Daisy Data could affect unit certifications and implied warranty.
5. Specifications Sheet

**LABMATE THIN CLIENT**

**PANEL MOUNT DESIGN**

**SERIES 7191AC**

**Standard Features and Benefits**

- Panel Mount 19” color display has a resolution of 1280x1024 and color depth to 24 bit.
- Integrated X-Terminal X11R6 compatible.
- Form, fit and function backwards compatible with model 7191AA & 7191AB.
- IPv6 and IPv4 complaint.
- Integrated 120VAC power supply.
- Glass-on-Glass resistive touch screen and EMI window with enhanced, scratch-resistant hard coat meets MIL STD 461D and 462.
- Integrated keyboard and mouse PS/2 ports, 100 Base T Network, RS232 port (DB9)
- Celeron M Processor at 1.3 Ghz.
Specifications

MATERIAL
Front Panel: 304 Stainless Steel #4 Finish
Viewport: Glass-on-Glass Resistive Touch Screen
Design: NEMA 4X Faceplate

PHYSICAL
Dimensions: 15.72” Height (H1) 14.00” Height (H2) 19.00” Width (W1) 17.50” Width (W2) 5.735” Depth (D) 17.70” x 14.20”
Mounting: Panel mount cutout

Operating Temperature: 32° to 104°F
Storage Temperature: -4° to 140°F
Weight: 18 lbs.
Vibration: MIL-STD-167-1A Section 5.1 Type 1
EMI/RFI: MIL-STD-461

ELECTRICAL
Required Power Supply: 90-264VAC, 47-63 Hz, 130-370VDC, 100 watts

DISPLAY SPECIFICATIONS
Diagonal Size: 19”
Resolution: 1280x1024
Color Depth: 24 Bit
Brightness: 240 cd/m²
Surface Treatment: Glass surface hardness of 6.5 Mohs

TOUCH SCREEN SPECIFICATIONS
Technology: Resistive, Glass-on-Glass
Resolution: 210,000 points/inch

X-TERMINAL SPECIFICATIONS
CPU: Celeron M 1.3 GHz
Storage (Standard): 256MB RAM
Hard Drive: 1GB Compact Flash

CONNECTIONS
Network: 10/100 Base T (RJ45), IP66 & IPv4 compliant
Serial: RS232 port (DB9)

10. Operating System
   For information about the X Window System, including operations, and for accessing technical
documentation, please visit: www.x.org/wiki/

11. Touch Screen Recalibration
   Each 7191AC has its touch screen inspected and calibrated by a Quality Control technician before leaving D3’s
facility. However, over time, operators may find that the unit’s touch screen becomes slightly inaccurate and
using the human machine interface becomes more difficult. If this occurs, the computer’s touch screen
software may simply need to be recalibrated. This process is easy and straightforward. Follow the steps
below:

   1. In order to find the calibration application, from the desktop, click and hold the right mouse button
      and select Configuration.
   2. Once the Configuration window opens, click on Edit Settings. Leave the password field blank, and
      select Enter.
   3. On the next screen, select X-Config to start the touch screen calibration application.
   4. Finally, follow each step of the on-screen instructions included in the calibration application to
      complete touch screen calibration.

   If this does not resolve the inaccuracies, there may be a hardware issue which needs to be resolved. In this
   case, contact D3 customer support at: (717) 932-9999.
